HEALTH BOARD

A Native Pastor's Statement. Milk Inspector Candidates,

Routine as well as extra or special business was handled with neatness and dispatch at the adjourned meeting of the National Board of Health yesterday. The members, etc., present were: President Smith, Secretary Wilcox, Dr. C. B. Wood, Dr. N. B. Emerson, C. A. Brown, D. L. Keliipio, Dr. W. W. Monsarrat, Dr. Campbell of Walmea, Kauai, Dr. Alvarez. The Executive Officer, Mr. Reynolds, is absent on Molokai.

Inspector Monsarrat reported that of the sheep and hogs killed during the past fortnight, all but one of two were free from liver disease, and that but few of the beeves were found to be

The veterinery further submitted that the stock in the dairy of Mrs. P. Neumann was free of even symptoms of tuberculosis.

The board voted to recommend that a license to practice medicine be issued by the Minister of Interior to Dr. Humphreys, partner of Dr. G. Herbert.

Applications for the proposed new position of milk inspector were received from Dr. Rowatt, Dr. Karr and J. A. McDonald. This is causing not a little distress and hardship NOTIFIED among the natives. Dr. Wood suggested that full investigation be made. He was in favor of having the sale of these Complaints On Matters at Molokal, pills discontinued. Dr. Wood further cited that a Japanese shop keeper on Kauai had been found to have in his possession an extraordinary amount of violent poisons. This should be looked into carefully. There was great danger in a system which permitted an ignorant Asiatic store keeper to have on hand for sale large quantities of poison. The board will secure reliable information and will act.

> President Smith reported that an act to prohibit the sprinkling of clothes by the standard Chinese method, was in course of preparation and would be introduced in the Legislature.

The board will make a trip to Molokai next month and a Legislative committee next week.

BACON HAS AMENDMENT READY

To Submit Question to Hawaiians. Davis Will Move to Lay on the Table.

WASHINGTON, March 16.-The Senate today ordered a favorable report on the oint resolution providing for the annexation of the Hawaiian Islands. This is as not abandoned its intention of making the Islands a part of this Republic.

As to the success of the measure in the louse, there is more room for a differnce of opinion, but the Senate is willing that upon that body should be thrown the responsibility for the success or failure of the Administration's policy. If the question resolves itself into a struggle be tween Speaker Reed and the President there is very little doubt as to the outcome. The power of the Administration s vastly greater than that of the Speaker, and the Speaker would be crushed in his efforts to overrule the Executive.

Chairman Davis has indicated no time when he will call the joint resolution up but as soon as the Senate calendar is clear of the appropriation bills that are pressing he will bring the resolution for ward and press it for continued consider ation. Several members of the commit tee with whom The Times reporter talked Professor Alexander, W. A. Bowen, H. yesterday said that under no circumstances would they be willing to vote for an adjournment of Congress until the subject of the annexation of these Islands had been disposed of. Many of the speeches that have been made in executive session will be repeated in open ses sion. The injection of this subject into the business of the Senate will prolong the session of Congress, whatever plan may have been arranged by those who imagine they are in absolute control of

Referring to the interest of Great Brit ain in the Hawaiian Islands, Mr. Davis says: "It is no less than a blind confidence in the impossible, to assume that Great Britain has no special interest in Hawaii, when that is the only missing link in the cordon of fortresses with which it is her proud ambition to girdle the world. She still has and will ever have a most important use for dominion in Hawali."

Cabinet Discussion Points to Such a Determination.

WASHINGTON March 22 -The Cabinet meeting today lasted something over an hour and was devoted exclusively to the Spanish situation in general and to the forthcoming report of the Maine court of inquiry.

The tone of the discussion was very firm and determined that there must come an end to the present state of affairs in Cuba.

Secretary Long authorized the statement that the understanding before the Cabinet was that the report would reach Washington next Thursday or Friday, would not occur until next Monday or Tuesday, as the President would require that much time to give the document the mature consideration which its momentous character required.

of the "TRIRING" they are weather wheels. During all this inclement weather we have been constantly beseiged by buyers and prospective buyers of TRIBUNES.

Another peculiarity of the wheel is that they are the most honest wheel built, and in this respect are the envy of all competitors. It is a peculiarity that all makers would like to imitate, if they could afford to do so. The trouble with most of these same makers is that they cannot afford to put material n that is made to wear. They have to pay too much.

-Ladies' or Gentlemen's wheels-in three models, at \$65.00, \$85.00 and \$100.00, are the cheapest on the market. We also have these same wheels finished in black striped with gold.

Perhaps a "Columbus" wheel, ladies' model - or a men's model "Zimmy," will do you. If so, we can sell you these at such a price that you will consider it too low; but they are good stock just the same, and worth a great deal more money.

The Spanish leaders know the dangers of the situation, and will not provoke war. To do so, would be the close of Spanish colonial government. As the matter now stands, the Spanish leaders, if it were not for the blind, almost insane bigotry of the Spanish people, would sell out Cuba to the Americans, or secure the guarantee of \$300,000,000 of Cuban indebtedness. War means the loss of Cuba and the Philippine Islands, and worse than all, the saddling on Spain alone of the Cuban debt.

The great financial houses of Europe are probably doing some effective, but quiet work in the matter. They will prevent war if possible, so as to secure something out of the Cuban wreck.

AN ACT RELATING TO STENOGRAPHERS, INTERPRETERS AND CLERKS FOR CERTAIN COURTS OF THE REPUBLIC OF HAWAIL

Be it enacted by the Legislature of the Republic of Hawaii:

SECTION 1. Authority is hereby conferred upon the First Judge of the First Judicial Circuit and upon each of the Circuit Judges of the other Circuit Courts, to appoint, with the approval of the Chief Justice of the Supreme Court, one or more stenographers and one or more interpreters for their respective circuits. Authority is hereby also conferred upon the District Magistrate of Honolulu, in the Island of Oahu, upon the District Magistrate of South Hilo, in the Island of Hawaii, and upon the District Magistrate of Wailuku, in the Island of Maui, respectively, to appoint, with the approval of the Chief Justice aforesaid, a clerk and one or more interpreters for each of said District Courts. Each of the stenographers, interpreters and clerks thus appointed shall hold office during the pleasure of the Judge or Magistrate by whom he is appointed, and shall receive for his services such salary as the Legislature may from time to time appropriate therefor. Any one of the said Circuit Judges may temporarily assign to any stenographer or interpreter appointed by him as aforesaid any appropriate duties in any Court of said Republic other than the one in which he is located. Nothing herein contained, however, shall be held to prevent the employment by any one of the Circuit Judges or District Magistrates aforesaid, without the approval of the Chief Justice aforesaid, of any stenographer, interpreter or clerk to serve in individual cases as they may arise, when necessary.

GOOD NEWS CAME

Encouraging Tidings Brought By the S. S. China.

IN LETTERS AND A TELECRAM

Advices From Minister Hatch-Mr. Thurston-Consul Wilder-Joint Resolution Will Pass-Mr. Reed.

(From Wednesday's Daily.)

News on the question of annexation that came to the Government and private parties by the mail yesterday was of the most encouraging nature. Even Minister Hatch has grown a trifle enthusiastic over the outlook. Mr. Thurston speaks with considerable confidence and Consul-General Wilder, from his vantage ground at San Francisco, offers the assurance that the matter will be settled to the satisfaction of the Island people within three weeks.

From Minister Hatch there was both a letter and a telegram. The letter gave a close detailed account of the situation and made some suggestions in regard to local man, who was popular here, was not affairs bearing directly on the treaty and joint resolution. In the telegram sent to San Francisco by Minister Hatch but a few minutes before sailing of the China he says that he can add nothing to his letter under the head of action, but that progress is being made, that the prospects are improving and that there is pre vailing a much better feeling. By noting that there had been no action after his letter had been mailed, Minister Hatch meant that no vote had been taken. There is much transpiring in the way of action that is important and effective. The friends of annexation are working harder than ever before and are getting the reward of a full showing of ready and most promising results. Those opposed to the treaty and joint resolution seem to have entirely exhausted their ammunition. The enemies of the union of the Republic of Hawaii and the Great Republic are said to now rely wholly on the possibility of consideration of the joint resolution by the House of Representatives being postponed by parliamen- sit for New York is carrying war marine tary maneuvering.

Mr. Thurston gives a careful review of the situation and pictures the future in glowing terms. He believes that success is now fairly in view.

From San Francisco, Consul-General Wilder writes that it is now understood to be the fact that Speaker Reed will not carry his opposition to annexation to the point of meeting administration disapproval and that the treaty will pass within three weeks.

There has been sent here the favorable report of the Senate Foreign Relations nary individual that this feature of a Committee on the joint resolution. Recently the old bark was given some repairs and advertised to sail for Alaska. She was commanded by Captain W. J. Hogan. How she met her fate will probably never be known. A heavy blow was on when she left San Francisco.

Captain Silovich of the tug boat Vigilant which went out to the floating hull voices the opinion of most sea-faring men in his theoretical account of how the accident happened says the Chronicle:

"When Hogan left port," he said, "there was a stiff wind blowing, which increased in violence the further he got outside. Driving against what must have been a full gale of wind was more than the old ship could stand and the strain opened up her seams forward.

"When Hogan found his ship leaking he tried to get back to San Francisco, but the water was too much for him. He was on the port tack when the end came, and evidently had all sail set. I do not think she capsized. She got her nose into a sea and there it stayed."

The crew was made up as follows: Cap-W. J. Hogan, First mate, J. W. Crantz, Boston, 35 years; Second mate, F. Mackie California, 26; Cook, John Higgins, Massachusetts, 30; Steward, W. C. Hopkins, Illinois, 40; Boy, Ira Cook, Connecticut, 44. The Almy is well remembered in Honolulu and there was great relief felt when it was learned that Captain Freeaboard. He sold out his interest in the bark many years ago.

That some Hawalian sugar now in traninsurance will be a surprise to a large portion of the population. It is a fact. If the strained relations between the United States and Spain last for any time at all, it is certain that every ounce of the principal product of the Islands as shipped will be guarded by policies against Spanish privateers.

The petition shows on its face that there are 250 male petitioners, and 327 female petitioners, or 677 in all, under 14 years of age, of whom 7 boys and 6 girls are only two years of age. The page of the petition and number of each male petitioner under 14 is given above. There is strong reason to believe that the number of minors under 14 is much greater than that given above, by reason of the fact that several hundred fraudulent changes in the ages of petitioners is apparent on the face of the petition, particulars of

which are hereinafter given. The number above enumerated is simply that appearing on the face of the petition. Second fact tending to discredit the petition.-The ages of 52 of the male petitioners, and 228 of the female petitioners, making 278 in all, have been fraudulently changed from a lower to a higher figure.

GOOD FOOD-GOOD DIGESTION-GOOD CHEER.

"Moral character is located in the stomach," says a recent writer. He is wrong; but there is a shade of truth in the idea he throws out. Napoleon was often willing to trust others to look after the arms and ammunition of his armies, but the commissary department he looked after himself. The bravest men won't fight unless

they are fed, he said. Nor will they. That's why we are not surprised to find Mr. William Jones saying that at a certain time he was in a low and desponding state of mind. He gives the reason himself in three words. "I was weak." And why was he weak? He explains that, too.

"I was always strong and healthy," he says, "up to January, 1892. Then I had a severe attack of influenza, followed by congestion of the lungs. After this I never got up my strength, and I was low, weak and desponding. I had a bad taste in the mouth, my appetite was poor, and every morsel of food I took gave me intense pain at my chest. After every meal I was sick, vomiting a green filthy fluid, which was often mixed with blood."

We shall have no trouble to understand this especial phase of Mr. Jones' illness. The green, filthy fluid was mucus mingled with bile, and the blood came from some of the sall bloodof the organizations named did not know vessels, which were ruptured in retching and straining. 1893. The case of Mr. Jones and his recovery as set forth by him are well known in his neighborhood. His wife says that one of the doctors told her that all hope was gone. But happily the doctor was mistaken, as the wisest of us sometimes are. His disease was chronic inflammatory dyspepsia, and that only. But that was enough, mercy knows, and a fatal end to it was not far off when Mother Seigel's Curative ture under the Monarchy, and is now an to a greater degree than in this country, Syrup had a chance to do its healing
